

Fellow pilots,

19 April, 2009

Thanks to the many of you that ordered Maxy's Fuel.

We have added four (4) blends to Maxy's line of Premium Race Grade Fuels. They are:

10% Nitro/20% Castor; 10% Nitro/10% Synthetic & 10% Castor; 15% Nitro/ 20% Castor; and 15% Nitro/10% Synthetic & 10% Castor. We also realized that some of you want a specific blend. So, we decided to fill orders for custom blends upon request.

Due to the high fees charged by the carriers we had to discontinue the "2 case order with Free S&H." It is to everyone's advantage to limit all orders to 8 cases since we can ship that quantity without adding any S&H and hazmat fees. If you want to order more or less than 8 cases email me at SEJStan@aol.com for a quote. It is my goal to provide you with Maxy's Premium Race Grade Nitro fuels at the best price possible.

To create easier invoicing and payment, Dads Hobby Stuff, inc. is now fully operational and able to accept payment by PayPal, check or money order. The orders will be invoiced by email with a link to PayPal where you can make payment if you prefer. Make payments to Dads Hobby Stuff, Inc. and not to me directly.

Attached is the current price list. The attachment is in Excel. If you can't open it, send me your snail mail address and I will send you a copy.

Happy flying,

Stan Jackson
